- Literature holder Item IS-05-LH1
- Media screen holder Item IS-80-TB04
- iPad holder Item IS-88-TB05
- Keyboard plinth Item IS-CO-KP
- Table attachment Item IS-CO-ST

1 Replace the old corner trims with the new set included in your Flying Oval post module.

2 Attach the top distance beam in the cut outs of the new corner trim.

3 Attach the foot in the base section of oval post lock in place.

4 Start to attach the base section with the distance beam.

5 Mount the center section in top of the base and end with the top post section, locking it into place with the top distance beam.
